A. Reading Roman Numerals

Individual Values:

I = 1   V= 5   X = 10   L = 50   C = 100   D = 500   M = 1,000

Two or three,all the same value - simply add:

II (I +I)=   III(I+1+i)=   XX(X+X)=

XXX=   CC=   CCC=   MM=

Two of different values -add if the largest value comes first:

VI(V+I)=   XV(X+V)=   XI(X+I)=

LX=   LV=   CX=   MC=   DL=

Two of different values-subtract if the smallest value comes first:

IX(X-I)=   XL(L-X)=   CD(D-C)=

XC=   CM=   IV=

Self Quiz- some are repeated from above-others are new:

1. V	2. D	3. L	4. CCC
5 X	6 DX	7 MD	8 MM
9 XX	10 ML	11. CX	12. V
13 XV	14 CV	15 LI	16 LX
17 CL	18 III	19 MV	20 IX
